RADIO/ PRESS RELEASE

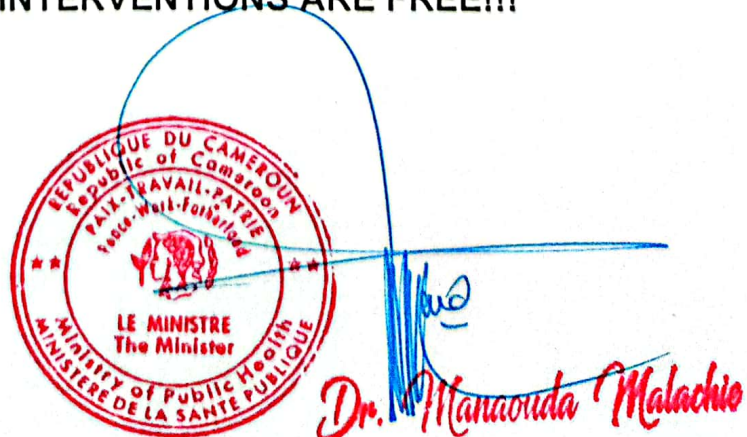

The Minister of Public Health, **Dr MANAOUADA Malachie**, hereby informs the general public that the 1st edition of the Maternal and Child Health and Nutrition Action Week (MCHNAW) for the year 2023 will be organized from 16 to 18 June in the Centre, Littoral, South, North West, South West and West regions, and from 23 to 25 June, coupled with the local days of immunization against poliomyelitis in the North, Far North, Adamawa and East regions.

During this campaign, distributors will go door to door to give vitamin A to children aged 6 to 59 months and to deworm those aged 12 to 59 months with Albendazole or Mebendazole.

In order to ease access of children to the interventions of this important activity, social mobilizers will pass through all public places and compounds to inform and sensitize families. Key messages will also be broadcast through media and accredited digital platforms.

The Minister therefore invites populations to warmly welcome the teams from the Ministry of Public Health.

ALL THESE INTERVENTIONS ARE FREE!!!
