PRESS RELEASE

The Minister of Public Health, **Dr. MANAOUA Malachie**, informs the national public that, following the voluntary and preventive recall of certain batches of **GUIGOZ** and **NAN** infant milks announced in several European countries, **in-depth investigations** have been carried out by the competent services of the Ministry of Public Health, in collaboration with the local representatives of the manufacturer.

At the end of these investigations, it appears that **the batches of infant milk concerned by this recall are not present on Cameroonian territory.**

To this end, the Minister of Public Health would like to reassure the population that the products available on the national market, in particular **GUIGOZ (GUIGOZ 1 and 2 – 300g and 400g)** as well as **NAN (NAN Comfort 1 and 2, NAN Optipro 1, 2 and 3)**, can be **consumed safely**, in accordance with the nutritional recommendations in place.

Finally, **the Minister of Public Health** would like to reiterate that the Government, through the Ministry of Public Health, remains fully committed to **protecting the health of the population**, particularly that of babies and children.

The Minister of Public Health

Dr. Manasuda Malachie
